Selectmen's Report.

TO THE CITIZENS OF THE TOWN OF NEW CASTLE :

The selectmen herewith submit the annual report for the year ending February 15th, 1913.

A great amount of work has been accomplished in the way of repairs to highways during the past year.

This would have been impossible without the most generous aid of our esteemed friend, Major Samuel B. Barrett, now deceased, we are pained to relate.

That all may learn the generosity bestowed, we think it best to relate that he presented the sum of \$4,303.14 to a citizen of the town, requesting him to repair and rebuild certain portions of our roads providing the selectmen would agree to the work being carried on as he desired. The selectmen agreed to his proposition and the work was completed as requested.

We should feel that this work has relieved the taxpayers of our town from a great burden of tax for a number of years, as the portions of road rebuilt were in a very bad condition and we would have been obliged at no late date to have put them in repair.

We take pleasure in stating that soon after the completion of this work the selectmen were handed a petition signed by many citizens of the town, requesting that the section of road from Wentworth hill to the junction at Main street, formerly called Wentworth avenue, be changed to Barrett road and suitable signs

placed thereon, and a copy of the petition be mailed to Mr. Barrett.

This was done as we considered it would be sanctioned by a majority of the citizens of the town, and that the benefactor fully deserved the recognition.

Altogether we now have over one mile of stone road over the direct highway through the town, leaving about four thousand feet to complete the work, and we would recommend that the town appropriate a sum sufficient to complete the so called back road to the hill near Tarbell property.

We further recommend that the town take some action toward soliciting aid from the United States government for the maintenance of our roads.

Further articles might be mentioned here but we reason it would be better they be discussed at the meeting.

Respectfully,

ELMER E. EATON,
OLIVER B. MARVIN,
JESSE O. WHITE.

REPORT OF THE BOARD OF EDUCATION.

TO THE CITIZENS OF NEW CASTLE:

I herewith present my second annual report of the financial standing and condition of the schools in this District.

Our schools have been free from epidemics of any kind during the past year which materially lessens the average attendance, as was the cause of the poor attendance during the past two years.

Absences on account of sickness are not, however, the only ones that retard the progress of the school as a whole and makes it impossible for the unfortunate absentees to be promoted with their classes; there are far too many caused by avaricious, indifferent and careless parents.

I find in most cases simple negligence and failure on the part of the parents to insist upon and secure regular attendance, an indulgent disposition, which allows a child to do as he likes.

Generally such a parent does not appreciate the importance of regular and punctual attendance in order for the pupil to make steady and even progress in his work, and often complains because his child must remain in the same grade the second year. and the board promises, a continuous and strenuous effort, during the coming year, to enforce the compulsory school law, not only for the sake of the pupil, but for the self-respect of the town.

Our Primary school is still in charge of Miss Maude H. Trefethen whom we all know, and her good work is being conducted along the same lines as she has done in the past.

Miss Josephine P. Ray resigned her position in the Grammar school, and the board has secured the services of Miss Nellie H. Smith who has brought our school up to the stan-

dard and one who is efficient in her work, and we hope will be with us another year, as the constant changing of teachers is a detriment to our schools that cannot be overestimated. A teacher must become thoroughly acquainted with her pupils and the new conditions and the pupils must know her before the best results can be attained before she can reach the maximim of her possible efficiency.

Taking into consideration the high cost of the necessities of life, and the fact that the teacher is expected to dress well, and spend money for books and other means of professional improvement we cannot expect to secure, or to retain, first-class teachers, for the same salaries which have prevailed in years past.

Respectfully submitted,

ANDREW J. HORNING,

Chairman of School Board.
